DETAILED ACTION

Election/Restrictions

Applicant's election of figures 1-26 in the reply filed on 10/24/05 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

Claims 5-6, 19-20 and 24 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 10/24/05.

Additionally, claim 9 is also withdrawn as being drawn to a non-elected invention.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-4, 18 and 21-23 are rejected under 35 U.S.C. 102(b) as being anticipated by Kriesel et al (USPN 6,416,495). Kriesel discloses an outer housing, an expandable housing, a constant force extension spring, fill means and dispensing means. See figure 12. The expandable housing comprises a bellows structure with an accordion-like side wall, first fill vial (46), and plurality of flow control channels (66, 137).

Art Unit: 3763

Claims 1-2,7,18 and 21-23 are rejected under 35 U.S.C. 102(b) as being anticipated by Rey et al (USPN 6,416,495). Rey discloses an outer housing, an expandable housing, a constant force extension spring, fill means and dispensing means. See figure 1. The device also includes flow control means 28.

Allowable Subject Matter

Claims 8,10-17 and 25-28 objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
